

# INTERNATIONAL Outreach Program

Saturday, 2 December 2023

Hyderabad International Convention Centre | **India**

In Conjunction With:

The Saudi Association for Pulmonary Hypertension (SAPH) is a medical and research national group of many medical specialists, who shared a common interest in the field of Pulmonary Vascular Diseases (PVD). The main goal for SAPH is to increase the awareness and the knowledge of pulmonary vascular diseases in the society and between the medical professionals, and to start variety of research projects in the field of pulmonary vascular diseases in the region, in order to improve the understanding, and quantify the size of the problem in this part of the world. SAPH is registered and operates under the Saudi Thoracic Society

**Goals & Objectives:**

- To investigate the incidence, prevalence, and pathobiology of PVD in underserved areas that, to date, have not been well characterized. Also, to identify unique characteristics of the illness including its morbidity and mortality.
- To provide expertise to physicians, scientists, health authorities and healthcare industry regarding new developments on medical technologies and pharmaceuticals relevant to PVD.
- To provide consultative services to health agencies and industry regarding advancing the treatment of PVD.
- To provide expertise to areas with healthcare disparities that will address issues related to the education and training of healthcare professionals in the area of PVD.
- To establish a national database on patients with PVD to allow a meaningful understanding of the similarities and differences in the spectrum of illness between different regions in the kingdom and other countries in the world.
- To focus on improving the treatment of PVD, by promoting basic and clinical research by educating physicians, and by assisting the development and conduct of clinical trials following the highest standards of clinical research.
- To develop a web-based, multilingual educational materials and guidelines on the management of pulmonary vascular disease accessible to people involved in healthcare delivery.
- To conduct conferences and workshops on modern methods of patient evaluation, determine accurate diagnoses, and monitor the efficacy of treatments. Also to promote public awareness through different means including print and electronic media and public seminars
- SAPH International Outreach Program (SIOP) was founded to establish line of communication and collaboration with our colleagues and friends from different international societies, organizations, or institutions who are providing Pulmonary Hypertension Services. International Outreach Program will entail, but not limited to, conducting conferences, symposia, workshops, masterclasses, demonstrations, joint research activities, and visiting professor/ expertise exchange programs.

**Prof. Abdullah M. Aldalaan, MD**  
President, Saudi Association for Pulmonary Hypertension (SAPH)  
Consultant, Pulmonary Medicine  
Director, Pulmonary Hypertension Program, Lung Health Center  
King Faisal Specialist Hospital and Research Centre  
Professor of Medicine, Alfaisal University  
**Riyadh, Saudi Arabia**

**Abdullah M. Alkhodair, MD, FRCPC**  
Consultant, Interventional Cardiology/  
Pulmonary Hypertension  
Director, Adult Cardiology Program  
King Fahad Medical City  
**Riyadh, Saudi Arabia**

**Prof. Majdy Idrees, MD, FRCPC, FPVRI**  
Head, Pulmonary Vascular Unit  
Prince Sultan Military Medical City  
**Riyadh, Saudi Arabia**  
Adjunct Professor of Respiratory  
Medicine, UoBC, Vancouver, Canada

**PULMONARY HYPERTENSION SESSION**

**SATURDAY, 2 DECEMBER 2023 | CHARAKA HALL | SESSION:7**

**03:00 pm - 03:20 pm | PAH Diagnosis and Risk Stratification; Importance of Precision**

**Abdullah Aldalaan - KSA**

**03:20 pm - 03:40 pm | PAH Management; Where do we Stand?**

**Majdy Idrees - KSA**

**03:40 pm - 04:00 pm | Group II PH; Common Disease with Treatment Challenges**

**Abdullah Alkhodair - KSA**

**FRIDAY, 1 DECEMBER 2023 | KILLIAN HALL | SESSION:7**

**03:45 pm - 04:00 pm | CTEPH Management; Medical, Surgical and Beyond**

**Abdullah Aldalaan - KSA**

# SAPH2024

THE 17<sup>TH</sup> ANNUAL CONFERENCE OF  
THE SAUDI ASSOCIATION FOR PULMONARY HYPERTENSION  
15-17 FEBRUARY 2024 | RIYADH MARRIOTT HOTEL, KSA

## ORGANIZED BY:

## IN COLLABORATION WITH:

## WITH PARTICIPATION FROM:

## TARGET AUDIENCE:

- Adult/Pediatric Pulmonologists
- Cardiologists
- Rheumatologists
- Cardiac Surgeons
- Neonatologists
- Intensivists
- Internists
- Pathologists
- Radiologists
- Pharmacologists
- Researchers in the field
- Fellows in Training
- Technologists
- Allied Health Professionals
- Nursing

## TOPICS INCLUDE:

- PH Diagnosis, Classification and Management
- Pulmonary Hypertension in Children
- Treatments Pathways
- PH and Rheumatic Diseases
- Debates; Pro & Cons
- Round Table Discussion
- Congenital Heart Disease
- Current Update on CTEPH
- Emerging Therapies and Interventional Modalities
- Challenging Cases and Abstracts Session

## WORKSHOPS:

- Comprehensive Multimodality Imaging Findings in PH/ CTEPH
- Right Heart Catheterization; State of the Art Measurements
- Risk Stratification; Case-Based Scenarios

## SAPH OBJECTIVES:

- To investigate the local incidence, prevalence, and pathobiology of PVD in the region.
- To identify local characteristics of the illness including its morbidity and mortality.
- To provide expertise to educate and train healthcare professionals in the field of PVD.
- To focus on improving the diagnosis and management of PVD, by promoting basic and clinical research.
- To conduct conferences and workshops on modern methods of patient evaluation, determine accurate diagnoses, and monitor the efficacy of treatments. Also to promote public awareness through different means including prints and electronic media and public seminars.
